Development of a SMS framework to conduct Nuclear activities for the Director General of Nuclear Safety (DGNS) - Department of National Defence Canadian forces (DND/CF)

The Director General Nuclear Safety (DGNS) is the nuclear regulatory body of the Department of National Defence and Canadian Forces (DND/CF).

Services:

The DGNS tasked ISR with the development of a SMS framework that would include components and elements to successfully manage the conduct of a Nuclear Activity and/or the handling of an Ionizing Radiation Source within the DND/CF.

ISR created the Nuclear and Ionizing Radiation Safety (NAIRS) Management System (NMS).

Finally, ISR performed a regulatory gap analysis comparing the NMS to the draft versions of the Defence Administrative Orders and Directives (DAOD).
